EA

“ I wanted to take a moment to honor David and the impact he had on me. Even though we only knew each other for a short time, he made a lasting impression on my life. As a young professional carving a path in business, it meant the world to have someone like Dave believe in me. He would send me leads, spend time on the phone with me almost every weekend, and always offer words of encouragement.

*It's rare to find people who go out of their way to lift others up, expecting nothing in return. Dave was one of those rare people. Genuine, supportive, and full of heart.*

*I'm grateful to have had the chance to know him, and I'll carry his encouragement with me as I continue to build my future. My deepest condolences to his family. Please know that his kindness and belief in others will not be forgotten.*

MG

“ Sending my love and prayers to David's daughters and family. Absolutely heartbroken. Way too soon. Great memories of time at John Glenn. A great friend of the entire Graber family. Rest in peace.

RE

“ So sorry to hear this. I remember him looking out for me when I first came to America. Great lad  
So sorry to all Dave's family and friends
