JO

“ I worked with kristal while she worked at Florida Cancer Specialists. And every day we worked together we always tried to make the other laugh as the days were hectic. I have missed her so much since she left and her passing has definitely saddened my heart. My condolences to her family.

WG

“ I would just like to say that Kristal left this earth way way too early. She was a delightful and caring and loving and sharing woman. I will miss her very much. God rest her soul. My condolences to the entire family.
